

ALL-DB™

Distribution Boards for indoor use

The ALL-DB range of Domestic Distribution Boards are essential components in the intricate web of household power distribution. Set to redefine the way we approach renewable and backup power installations in existing homes. With a fusion of cutting-edge technology, safety considerations, and design elegance, ALL-DB charts a new course for efficient and secure power management.

Adjustability up to 6° to correct builders error

- Made from Glass Reinforced Polyester
(Clear cover is Polycarbonate)

- IP4X (Indoor use only)
